TANK MOVING TRAILER WITH HYDRAULIC ARM

PATENTED

DESIGNED FOR OIL STORAGE TANKS

FOR SALE

TANK MOVING TRAILER WITH HYDRAULIC ARM

NO WORKER NEEDS TO CLIMB ON ICY, ROTTEN OR UNSAFE ROOFS TO TIE CHAINS, ELIMINATING THE CONFINED SPACE REQUIREMENTS OF A SECOND PICKER WITH MAN-BUCKET AND SAFETY WATCH.

NO WORKER NEEDS TO WORK AT HEIGHTS REQUIRING FALL PROTECTION PPE.

ARM IN POSITION FOR 750 BARREL TANK

DUE DILIGENCE “AN EMPLOYER SHALL TAKE ALL REASONABLE MEASURES TO INSTITUTE ENGINEERING TECHNIQUES, SYSTEMS, WORK PRACTICES OR ADMINISTRATIVE CONTROLS THAT ELIMINATE OR REDUCE TO A PRACTICAL MINIMUM THOSE HAZARDS FOR WHICH PERSONAL PROTECTIVE EQUIPMENT WOULD OTHERWISE BE REQUIRED.”

THE SADDLE OF THIS TRAILER IS TOPPED BY A HYDRAULIC ARM THAT REACHES OVER AND GRABS THE TOP OF THE TANK.

THIS ARM CAN EXTEND OR RETRACT AND CHANGE ITS ANGLE AS NEEDED.

ONCE THE TOP OF THE TANK IS SECURED, IT IS TIPPED OVER ON ITS SIDE, ONTO THE CRADLE, READY FOR TRANSPORT.

ARM IN POSITION FOR 1000 BARREL TANK

HEIGHT RISK ELIMINATED TO WORKER

LOWER COST TO CUSTOMER
